# **Business Goal**

The Company has planned a 9-year business strategy (Year 2016 – 2025) for the sustainable growth as follows:

- 1. Balance to create the revenue balance for increasing overseas business ratio to 50% as well as to balance the business development between owned hotels (Capital investment) and managed hotels (Asset light) minimizing the capital investment and maximizing the return on assets ratio.
- 2. Diversify to boost the variety of business types for the risk diversification by goal setting of a 10% revenue contribution from investment in new businesses.
- 3. Expand to expand the business by doubling hospitality business to 14,000 rooms within 2021.

Sustainability, of course, is all about considerate planning for the future. Just as Rome wasn't built in a day, we recognize our vision for a globe-spanning company will not be realized overnight. But the steps we take early in our journey are nevertheless essential to reaching our goals, and every stride must be made with purpose. Clear direction from the very top is essential.

# Chairman's Message

Dear shareholders and stakeholders,

In 2017 we entered the second year of our nineyear strategy for sustainable and profitable growth, and in our journey towards balance, expansion and diversification, we placed 'Strengthening the Foundation' at the center of our business.

Not only did Dusit invest heavily in human capital to enhance our capacity for growth, but we also performed much-needed renovations of our longest -running properties to maintain their competitive advantage. As such, a softened financial performance was inevitable. But this is simply a case of short-term loss for long-term gain.

Sustainability, of course, is all about considerate planning for the future. Just as Rome wasn't built in a day, we recognize our vision for a globe-spanning company will not be realized overnight. But the steps we take early in our journey are nevertheless essential to reaching our goals, and every stride must be made with purpose. Clear direction from the very top is essential.

With this in mind, in 2017 we successfully enhanced the Board by appointing three new members whose rich experience in various industries will help to strengthen DTC's capacity for achieving our strategic goals.

This included tapping into the financial and educational knowledge of Prof. Emeritus Dr. Khunying Suchada Kiranandana, who, among other roles, is an active board member of Kasikorn Bank and current Chairperson of the University Council, Chulalongkorn University; and the financial expertise of Mr. Pakhawat Kovithvathanaphong, whose current positions, amongst others, include Honorary Director, Government Pension Fund (Thailand), and Chairman of the Board of Directors, Trinity Watthana Public Company Limited. Both joined the Board as independent directors in March 2017.

The third member to join the Board as independent director, in June 2017, was Mr. Somprasong Boonyachai. With over 40 years of experience in telecoms and related technology, and a current director of leading companies such as BEC World and Thaicom, he now

provides vital guidance in line with DTC's efforts to enrich its guest and customer experience via costeffective, high-tech solutions.

Another important development in 2017 was our decision to postpone the closing date of our flagship hotel, Dusit Thani Bangkok (DTBK). The property was originally slated to close for redevelopment on 16 April 2018 as part of our upcoming mixed-use project, but we decided to move the date to 5 January 2019 to allow more time to add even greater value to the project in terms of design and innovation.

With the land lease for DTBK graciously extended by the Crown Property Bureau for almost 70 years, we are now in an ideal position to create a new city landmark that enhances existing infrastructure, celebrates Thai culture, creates new opportunities for local businesses, and elevates our company's standing internationally. All of this, of course, will create enduring value for all of our stakeholders – and we are determined for it to flourish and prosper.

On behalf of the Board of Directors, I would like to thank all our shareholders, customers, guests, business partners and all other stakeholders for your continued support of our business. The extended operations of Dusit Thani Bangkok, coupled with the opening of at least 10 new hotels in China, Philippines, and new destinations such as Bahrain, Bhutan, Singapore and Vietnam, provide a strong foundation for success in 2018. Through innovation, investment, and focus on long-term outcomes, we look forward to continuing building a bright financial future for us all.

# Group CEO Message

### Dear shareholders and stakeholders,

2017 was very much a year of consolidation, capital investment, and adaption for our company as we continued laying the groundwork for a sustainable and profitable future.

From extensive renovations of our longest-running properties, to developing our human capital, to the strategic divestment of Dusit Princess Korat hotel, every decision and investment we made was designed to strengthen our foundations and enhance our capacity for long-term revenue generation.

By year end, we reported a net profit of THB 267 million, an increase of 134% from 2016.

# Strengthening the foundations

In our pursuit of a bright and sustainable future for the company, in 2017 we looked deep into the company's core foundations – its people, processes, properties, technology, and financial capabilities – and began refining each element in line with our masterplan for long-term success.

Architects of our own destiny, we further consolidated, diversified, and fortified our fundamental operations with a view to building a solid company structure able to weather industry disruption, technological shifts and economic storms.

This included investing in people. Throughout the year we successfully secured top new talent to enhance our team and elevate our capacity towards achieving our strategic goals. Our strategic blend of long-service staff and newcomers has led to many initiatives that will add value for all shareholders and stakeholders.

One such initiative was the successful formation and introduction of the Dusit Thani Freehold and Leasehold Real Estate Investment Trust (DREIT). Converted from the original Dusit Thani Freehold and Leasehold Property Fund (DTCPF),

DREIT provides increased tax efficiency, the ability to invest in real estate in Thailand and abroad, and more freedom to renovate hotels under the trust. This will help to unlock the full potential of our assets, drive the expansion of our business, and create even more value

# **Towards global expansion**

In 2017 we also made good progress towards global expansion. Our Development team signed 17 properties across Bahrain, Bangladesh, China, Ethiopia, Nepal, Thailand and Vietnam, taking our tally of properties in the pipeline worldwide to over 60.

Dusit Hospitality Education, meanwhile, successfully received its licence to operate the pioneering Dusit Hospitality Management College, a unique fully integrated hospitality school and hotel in Manila, Philippines. In Bangkok we also formed the Dust Thani Excellence Centre, which will enhance Dusit Thani College's capacity to offer short culinary and hospitality courses for corporate clients.

Properties currently under the trust include Dusit Thani Laguna Phuket, Dusit Thani Hua Hin, and dusitD2 Chiang Mai. More properties will be added according to commercial viability.

In 2017, we also invested in extensive renovations of Dusit Thani Laguna Phuket, guest rooms at Dusit Thani Pattaya and Dusit Thani Manila, and a complete makeover of Benjarong Restaurant at Dusit Thani Manila. The positive results of these renovations were quick to manifest. Within just two months after reopening, for example, Benjarong restaurant was named one of the 14 Hot New Global Restaurants by CNN Travel. The restaurant was also swiftly granted the THAI SELECT seal of approval from the Ministry of Commerce in Thailand, cementing its reputation as one of the best Thai restaurants in the Philippines.

Alongside strengthening our property foundation in Thailand to focus on key leisure and tourism destinations, including the strategic divestment of Dusit Princess Korat, we began exploring options to establish a presence in even more international markets. This included opening a new Global Sales Office in India, one of the world's fastest growing outbound markets, and establishing strategic partnerships with two renowned hotel companies – Dossen International Group in China, and Colours International Co., Ltd., in Japan – to drive expansion of our operations within both countries.

In terms of diversification, we also invested in FavStay, a Thai online start-up offering condos and villas for rent in Thailand's top destinations. We have realised that, by embracing the sharing economy and leveraging its success, we can add value to our existing business units informed by the lessons we learn from the innovative

business models of the sharing economy.

# **Building for success**

In the first three years of our strategic journey, as we invest in our foundations, we may see a drop in our top and bottom line; this is to be expected. It is important to remember, however, that we are still very much at the beginning of our journey – and this is the most crucial stage.

The best example of our long-term vision for the company can be seen with the redevelopment of our flagship property, Dusit Thani Bangkok. Originally scheduled to close for redevelopment in April 2018, we postponed the hotel's closing date to 5 January 2019 to allow us more time to work on the design and add even greater value to the new project. The first steps to any journey are always the most significant, and we will always ensure we have the strength and capacity to go the distance and succeed time and time again.

Key to our success is our strategy. In 2018 we will enter the third year of our proposed nine-year journey towards balance, diversification and global expansion, and in line with global economic recovery and continued expansion of Thailand's tourism industry, we expect to see a 5% YoY revenue growth.

Added value will come from continuing to strengthen our foundations, including opening at least 10 new hotels in six countries; conducting offseason renovations of our hotels in Phuket, Maldives and Pattaya, with an estimated CAPEX of THB 255 million; expanding Dusit Hospitality Education overseas with the opening of Dusit Hospitality Management College in Manila, Philippines;

developing new lines of business in the food and beverage sector; signing more hotel management agreements and franchising contracts in key international markets; and introducing a new hotel brand aimed at the fast-growing market of 'millennial-minded' travellers.

With these foundations firmly in place, we'll be ideally positioned to build towards a bright and sustainable future.

On behalf of everyone at DTC, I would like to thank you all for your continued support for our business and our unique brand of gracious hospitality. We look forward to creating value we can all be proud of.

# **Blueprint for sustainable success**

In building towards the future, we are working towards three clear goals: double our number of hotel rooms in operation, balance our portfolio to generate 50 per cent of our business outside of Thailand, and diversify our lines of business so that 10 per cent of total revenue comes from new investments. We aim to achieve all this by 2025.

### 3. The Mixed-Use Property Development Project

The Mixed-Use Property Development Project (Mixed-Use Project) is a joint investment between Dusit Thani Public Company Limited which proceeded through its subsidiary and associate companies with Central Pattana Public Company Limited which consists of the new Dusit Thani Hotel Bangkok, a residence, a retail shopping center and an office building. The total investment value will not exceed Baht 36,700 million. This investment is developed on 23-2-2.72 rais of land located at the intersection of Silom Road and Rama IV Road with details as follows:

- 1. The joint investment in the Property Development Project which will consist of the rights to land lease, develop and construct a hotel, a residence and a retail shopping center through Vimarn Suriya Company Limited.
- 2. The joint investment in the shopping center project through Suanlum Property Company Limited.
- 3. The joint investment in the office project through Saladang Property Management Company Limited which Phraram 4 Development Company will be assigned the land lease right from Dusit Thani Public Company Limited for the Office Project and Saladang Property Management Company Limited will sublease the land from Phraram 4 Development Company Limited.

The investment of the mixed-use property development project will be located on the leased land of 15-3-67.84 rais which the Company have entered into an agreement with the Crown Property Bureau on July 31, 1968 for the period of 30 years from April 1, 1973 to March 31, 2003. The Company is entitled to extend for another 2 terms which are 15 years each and the rental fee would be renegotiated. The Company

firstly renewed the lease agreement for the land of 18-1-28.20 rais with the term of 15 years from April 1, 2003 to March 31, 2018. The Company which later waived to extend the existing leasing agreement and has entered into the new agreement with the Crown Property Bureau for 23-2-2.72 rais of land with the term of 30 years signed on December 22, 2016 (Additional land of 5-74.52 rais from 18-1-28.20 rais which Olympia Building, Thai Insurance Building and 9 blocks of commercial buildings are located).

This project is an expansion to the main hotel business to diversify, increase competitiveness and strengthen Dusit Thani brand by its uniqueness of Thai heritage preservation as well as utilized maximization of the land which will also benefit for tourists and Thai citizens. This location is truly a city center which consists of business center, major Bangkok's transportation connected ways to BTS sky train and MRT subway, an A-grade residential areas located at the opposite of Lumpini Park, the big greenery area of Bangkok. The Company is confident that this project will be a new landmark of Bangkok similar to 48-year-ago that Dusit Thani Hotel Bangkok has embarked its history which will also strengthen the Dusit brand. The project construction is expected to start at the end of 2019 and to be completed at the end of 2023 till the middle of 2024.

Nevertheless, Dusit Thani Bangkok Hotel still operates until January 5<sup>th</sup>, 2019 which was postponed from the original plan to cease its operation on April 2018 after the Company has considered related factors and spent more time in details of the designs and project development with prudence, care and delicacy of every step to design the project that answers the needs of both conservation and innovation. This includes not only building greenery area connected to Lumpini Park, but also connecting all levels of transportation consisting underground, ground area or sky-high to relieve the congested traffic problem in this area.

In summary, the Mixed-Use Property Development Project is currently under demolishing office buildings and commercial building on the additional land of 5 rais located next to Dusit Thani Hotel Bangkok's office building and parking area.

### **Outbound travel from China**

"2017 China Outbound Tourism Travel Report" alongside China Tourism Academy (CTA), a specialized institute under China National Tourism Administration (CNTA).

The number of outbound trips has reached 130 million in 2017, up 7.0% from 122 million in 2016. An estimated 115.29 billion USD was spent during 2017, a year-on-year increase of 5%. Chinese travelers are becoming increasingly focused on their well-being and the purpose for making outbound trips has changed from sightseeing and shopping to enjoying high-quality services. According to Ctrip statistics, Ctrip's tailor-made travel and local guide platform has served millions of tourists in 2017. Such personalized trips designed by Ctrip travel planners are becoming a popular option for Chinese travelers.

Chinese travelers have greater demand for assistance throughout their trip and are more focused on safety. Ctrip's "Global SOS" service provides 24/7 emergency responses and support for our ever growing travelers. 2017 saw a total of 2191 SOS cases from which 82% were for outbound travel. With a 94% success rate, it has since been widely accepted by our users.

In terms of outbound travelers, Beijing, Shanghai, Suzhou and Wenzhou spent the most. Lesser well-known cities are seeing huge growth in outbound tourist numbers. Chengdu surprisingly overtook Guangzhou and Shenzhen and ranked third in the number of outbound tourists with other cities such as Changsha (up 200% increase) and Xi'an (up 300% increase in tourist numbers) have also seen increasing rise of outbound tourists. Thailand and Japan remain to be the two hottest outbound destinations.

### **Outbound travel from India**

With more flight connections, better exchange rate and fewer visa restrictions, many emerging destinations such as India has emerged as the world's fastest-growing outbound market and in absolute numbers it is second only to China. The foreign tourism boards are gearing up to meet the growing number of Indians who are travelling abroad and splurging. While many of the National Tourism Organizations have established their own offices in the country, others are making use of representations or their embassies/cultural desks to test the waters, before taking the plunge. Personal and official travel for Holiday/Leisure,

Business and MICE tourism are the most significant contributors for growing outbound travel. The easy availability of attractive packages, increased promotion by travel agents/tour operators and destination countries will further drive outbound departures.

In terms of Indian tourist departures from India, Thailand has emerged as the most popular tourist destination for Indian travelers. Thailand is being followed by Singapore. United States and China stands at the 3rd and 4th spot for Indian tourists respectively. While Malaysia stands at the fifth spot in 2013.

In terms of spending by Indian tourists, United States is the leader, followed by Thailand and Singapore. Australia and United Kingdom stands at the 3rd and 4th spot respectively and the gap between them are narrowing. Italy is holding 6th position in the year 2013, being followed by Malaysia, which is at 7th spot in the same year. Morocco, Turkey and Tunisia are seeing huge growth in visitor numbers.

### **Local Economic and Political Environment**

Thailand is the second largest economy in Southeast Asia after Indonesia, and with an upper-middle income status, serves as an economic anchor for its developing neighbouring countries. The country's economy appears resilient and, according to IMF, the recovery is expected to advance at a moderate pace despite domestic political uncertainty. Public investment is projected to remain a key driver, increasing over the next few years, in line with the government's infrastructure plans to attract private investment. The year 2017 marked the best results since the arrival in power of the military-led government in 2014: Thailand's economy showed mild recovery, with economic growth reaching 3.7% of GDP, and expected to remain between 3.5% and 4% in 2018, and inflation estimated between 2.5% and 1.5%. A little higher inflation will probably be offset by the favourable impact on pay of strong employment and activity in most sectors. The unemployment rate remained low in 2017 (0.7%) and is projected to maintain the same level in 2018.

The National Strategic Plan (2017-2036) places the emphasis on improving the investment environment, boosting the country's competitiveness and long-term economic performance through the development of rail, road, airport, and electricity infrastructures. The junta's continuing grip on power has reassured many foreign investors previously deterred by potential instability. Growing regional competition risks, however, diminish Thailand's attractiveness as an investment destination. Exports of goods and services (71% of GDP) are expected to perform well, with the slowdown in China being counterbalanced by the economic upturn in other markets. Despite high indebtedness, household consumption, amounting to 50% of GDP, is projected to remain strong, reflecting the levels of real disposable income.

### Competition

### - Internal

Each hotel has determined a competitive set with similar products, brand positioning and location for measuring performance on the Revenue per Available Room (RevPAR), market penetration and average rate.

The Key Performance Indicators (KPIs) for each hotel is their ranking in the competitive set within these 3 indices' percentage changes over the previous periods. This is tracked both on a daily basis and in their monthly report to the corporate office to allow better monitoring of each hotel's performance against their competition in each market and is also substantiated by STR Global, the industry's respected benchmark.

Aside from market share, Global Review Index is also used to measure and monitor each property's online reputation, data from which will be used to identify and correct operational issues for driving improvement in service and ranking.

### External

There is an oversupply of rooms in all our Thailand locations with Bangkok being the most affected. New hotels are equipped with the latest designs and technologies and very competitively priced. Emerging destinations in South East Asia, especially Vietnam, Cambodia and Myanmar continue to generate increasing interest for FIT leisure business which will ultimately impact Thailand's market share.

### **Product and Service Acquisition**

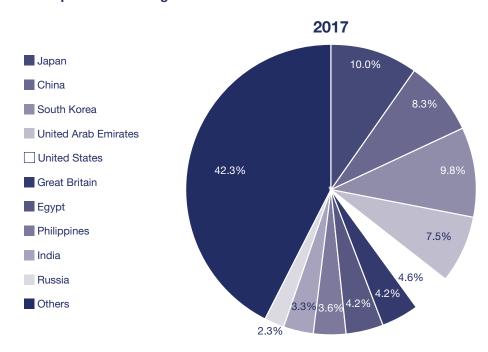

Manpower is the main key for operating hotel business and other related services, apart from setting up the place and providing facilities for the customers.

For hotels in Thailand, most employees are domestic workforce with well-trained skills in hospitality service; however, some positions require foreigner expertise. For overseas hotels, main employees are local workforce in order to facilitate customer's satisfaction in such countries whilst maintaining service standards and personalized welcome upon Thai culture.

In addition, Dusit Thani College serves the purpose of nurturing the professional hospitality personnel who would be expected to become a driving force for hotels in Dusit Group.

### **Hotel Business**

The top 10 contributing feeder markets for the 16 Dusit Hotels & Resorts

Source: Revenue Management, E Distribution, Reservation and Data Center

### Revenue Management, E Distribution, Reservation and Data Center

Enhancing the department functions to support an evolving Revenue Management discipline was the main priority in 2017. Key functionalities were divided into: Revenue Management, Revenue Analytics, E-Distribution and Centralized Revenue Management Service.

Recognizing the importance to increase Revenue Management efficiency, a key initiative was launched in April 2017 – Project Synergy. Key objectives were to improve Revenue Management leaders for Dusit by providing training support as well as standardization of Revenue Management reports, tools and functionalities

Prioritizing the need to improve Channel distribution, a key initiative was launched in September 2017 – Project CPC (Centralized, Pricing, Connectivity). Key objectives were to centralize all key Online Travel Agents, implement pricing guidelines across the chain to prevent rate cannibalization and standardize connectivity among all platforms.

Supporting Dusit's strategy to reduce dependency from Online Travel Agents and decrease cost of sales (by reducing commission), a key initiative was launched in November 2017 – Project W. Key objects were to instigate control over distribution landscape and reduce rate disparity to support the growth of Dusit.com. Improving Reservation discipline efficiency was another key focus for 2017.

### • Revenue Management

Primarily responsible for Revenue Management systems, Revenue Management is functionality and pricing guidelines. Revenue Management System training for Revenue Management and Sales leaders in Thailand was conducted in November 2017 with a plan to complete the training for International hotels in 2018.

Revenue Management training critical paths, Revenue Management core delivery list and Induction program were introduced to ensure the same standard of delivery across the chain for both existing and new opening hotels.

Audit and update of Business Segmentation definition as well as set up in relevant systems was carried out in the 4<sup>th</sup> quarter of 2017.

### Revenue Analytics

Focusing on the improvement of Revenue Management's efficiency, an official "Pick Up Tool" was launched in December 2017 to help standardizing data collecting process with a plan to implement an official "Forecast Tool" in January 2018. A series of tools and reports such as New MPR, New MEA, Marketshare Forecast and Budgeting Tools will be launched throughout 2018.

### E-Distribution

A new function which was introduced in November 2017, E-Distribution will play a key role in ensuring a growth of Dusit.com through strategic control of the distribution channels.

E-Distribution is currently heading Project W to centralize wholesale B2B contracts, imposing control on wholesale static contracts and standardizing OTA engagement policy across the chain.

E-Distribution is leading the initiative to centralize OTA contracts and is making headway in negotiating a chain level agreement with Expedia which is expecting to be finalized in January 2018 Agoda as well as other key partners are expecting to follow thereafter.

### Reservation and Data Center

Reservation manual and training plans are being finalized and are expecting to rollout by 1<sup>st</sup> Q 2018. Data Center will be focusing on the improvement of connectivity while supporting the hotels, particularly in China with a series of Synxis training modules.

Partnership with WeChat was established in 2017 and 1<sup>st</sup> batch hotel implementation was launched in December 2017 with the remaining hotels to be launched by January 2018. The program will provide a boost in distribution channel into China market through its estimated 1 billion users.

### E-Business

Launched of Dusit Mobile Application: as the use of mobile phones has increased dramatically in recent years therefore having mobile application has improved user experience versus traditional mobile website as it run faster, response very quickly and able to make a booking through this channel directly. In additions, we are implementing the loyalty section where guests can access into Dusit loyalty program which stores all guest profiles and all activities in the application.

Provide all technical support for Dusit Gold team to develop and maintenance Dusit Gold website to ensure that it the content and its functions are well-operated and up-to-date. We also assist Dusit Gold team to maintain the Gold Card member status checking webpage for non-Dusit Gold member hotels to assure that our loyalty guest will get the same level of support at every hotel.

Having Dusit booking engine on Dusit mobile application, we have customized our current booking layout/navigation to be able to integrate into mobile application and to ensure that the user experience between mobile application and booking engine flow correctly and smoothly.

### **Global Sales Offices**

- 1. Global Sale Offices (GSOs) contributed 21.1% of total Dusit hotels RNs in 2017 compared to 21% the year before. (Note: GSOs exclude www.dusit.com, Dusit Gold, Global Distribution System, etc. that generate revenue for the hotels.)
- 2. Total GSOs production increased by 18,096 RNs (+7.44%) and THB464M (+11.41%) in revenue over last year with increased sales penetration to cover potential emerging markets including second and third tier cities in China, GCC, Saudi Arabia, Korea and the newly added GSO in Korea in February as well as India in July through roadshows and direct sales calls.
- 3. A total of 13 tradeshows, consumer shows and roadshows to feeder markets were organized and attended by participating Dusit hotels. ITB Berlin being the most important and largest tradeshow in the travel industry yielded 55.85% ROI YOY. As we add more properties in the portfolio in key destinations, we will continue to exhibit in key and influential tradeshows to increase business partners to raise company profile and brand awareness.
- 4. Overall room sales revenue from the two Discovery Thailand consumer shows increased by 1% compared to the previous year with an impressive result in March. Due to renovation of Dusit Thani Pattaya and Dusit Thani Laguna Phuket and a huge increase in room supplies in Maldives and Hua Hin, the sales volume significantly dropped compared to last year for September as a result.
- 5. Sales coverage was expanded with the appointments of a Sales Manager in Seoul, Korea in February, a Senior Sales manager in Riyadh, Saudi Arabia in August and a Director of Sales in Mumbai, India since July. Korea, Saudi Arabia and India have registered a growth in room nights of 42%, 9% and 29% respectively over last year mainly from wholesale, business and leisure groups and corporate business segments.

- 6. Japan has been the top feeder market and has generated a healthy growth of 17% YOY. China's growth has slightly slowed down and generated an increase of 11% in room nights while Korea has recorded a hefty 42% growth to Dusit Hotels & Resorts compared to last year. Germany recorded the strongest growth of 23% with 25,279 room nights in 2017 among European countries while the United Kingdom contributed 47,376 room nights and remains the top feeder market from the European region. The MEA region shows a steady growth of 26% with hotels in the UAE and African region benefitting most especially in the corporate segment.
- 7. All GSOs in Beijing, Shanghai, Hong Kong, India, Japan, Korea, Middle East & Africa, Kingdom of Saudi Arabia, Russia and the UK & Europe will continue to foster close relationships with all Dusit Hotels & Resorts and all other business partners to raise Dusit brand awareness, generate more sales leads and exposure through collaborative marketing initiatives and joint promotions for the Group especially for our new and need properties. Every team member will stay focus and prioritize efforts to achieve goals set forth in the corporate sales and revenue plan.

### **Branding and Loyalty Marketing**

- A significant growth in Social Media performance for Dusit Hotels and Resorts can be shown.
  With 392,357 followers on Facebook at year end 2017, a growth of more than 550% in one year,
  the corporate channel sets itself clearly apart from local competition Anantara 125,000; Centara
  89,000; Banyan Tree 70,000.
- 2. The brand initiative Dusit Experiences was started in order to enrich our guest's stay with local experiences and personalized services provided by carefully selected partners. As part of this, the destination marketing initiative Dusit Journey was launched, featuring Dusit's international destinations and providing extensive recommendation based on genuine local insights. Accessible via dusitjourney.com and Dusit's Calendar 2018.
- 3. Dusit Gold achieved its target of half a million members by the end of 2017 with a total of 506,921 members. Since year-end 2016, membership has increased by 75%. Room nights and Revenue from qualified member stays have also increased by 49% and 10.2% compared to 2016.
- 4. To drive existing members to spend more on F&B and entice local consumers to become members and dine regularly at our hotel outlets, we increased dining discount to 20%, 25% and 30% for Premier, Executive and Elite levels, respectively. As a result, hotels generated a total revenue of more than THB 8.8 million (with 12,046 covers) within 3 months. In addition, the sign up process at F&B outlets was revamped to be quick, easy and paperless. Diners can now scan the QR code on the Dusit Gold dining table standee to enroll themselves and enjoy instant F&B discount. The Birthday campaign was also launched to drive hotel dining revenue and enhance the value of Dusit Gold membership by giving members up to 50% dining discount from 7 days before to 7 days after their birthdays.
- 5. The Dusit Gold website was enhanced with the addition of new photography (lifestyle shots) and a new slideshow to rotate the images. This was done to make the Dusit Gold website more enticing and more engaging for non-members who visit the website.

- 6. Dusit Gold partnered with TRUE to provide complimentary TRUE SIM cards to Dusit Gold members who book to stay at our properties in Thailand directly through Dusit's official channels. This helps to drive direct bookings on Dusit.com and Dusitgold.com, as well as to reduce commission costs for Wholesale or 3<sup>rd</sup> Party bookings (including online travel agencies). This also drives Dusit Gold enrolment by adding more value to standard membership.
- 7. In 2017 Dusit Gold boosted member engagement by augmenting its standard benefits, and usual activities on social media, with exclusive partner offers. This included deals with business partners and iconic brands such as Burberry, Sulwhasoo, Bangkok Airways, AIS, True, Singha Park Chiang Rai, The Vintage Golf Club, Khao Yai Golf Club, Praew Magazine, Golf channel, Prince Hotels & Resorts, and Flyertea (which is the largest Chinese Social website for frequent flyers and the second largest credit card forum in China).

### **Partnership Marketing**

- 1. We have more direct contact from Preferred Hotels Group (PHG) airline partners which reduced the cost by 162%. Nowadays, we have signed up All Nippon Airlines (ANA), Cathay Pacific (Asia Miles), EVA Air, Oman Air and HK Express (Reward-U) and currently participate in 25 airline frequent flyer programs including 16 directly contracted airline partners. Our objective for the next year is to have more airline partners to expand our brand and also lower cost.
- 2. Frequent Flyer Programs of our direct contracted airline partners generated THB10.98M revenue which went up by 30.80% in 2017 compared to the previous year with increased more airline partners and joining tactical promotion.
- 3. Redemption Programs produced THB14.73M from Thai and Bangkok Airways. We aim to sign agreement with more airline and bank partners in 2018 to drive more revenue and brand exposure.
- 4. Promotion with other partners including banks, credit cards and other businesses generated THB19M from tactical promotion this year.

### **Corporate Advertising**

Corporate advertising focus was on promoting tactical campaigns and Dusit brand awareness through online media channels including keyword search, banner ads and social media. As a result, key performance countries which generating revenue were leaded by Thailand, South Korea, Japan, Russia and Singapore.

Print advertisement was adjusted according to marketing trends – selected media to reach particular audiences and markets. Brand exposures comprised new hotel opening – dusitD2 Kenz Dubai on 1 February 2017 as well as Dusit Hotels & Resorts image featuring in inflight magazines such as Sawasdee (Thai Airways), Fah Thai (Bangkok Airways), Awesome (NokScoot) and Dusit mobile app in United Airlines' Hemispheres.

### **Public Relations/Marketing Communication**

### 1) PR Strategy & Key Message

Dusit International's public relations strategies in 2017 were designed to elevate both the quality and quantity of our output to effectively promote our properties, raise awareness of our brands (Hotels & Education), enhance our company image, and support our new investments and business growth.

Our key messages, which were designed to align with our three-pronged strategy – expand / diversify / double – included the global expansion of our hotels, the growth of the education division, new investments, strategic partnerships, and internal developments such as the launch of our new Vision, Mission, and Values.

### 2) No of PR activities and media valuation

In line with the above strategies and key messages, Dusit brand awareness was amplified through various PR initiatives including a series of press releases, media interviews, bylined article pitching, press conferences with trade, hospitality, business, education, social and lifestyle media; as well as speaking engagements at large-scale national and international business events and industry forums.

Corresponding to the rise of disruptive technology in the media industry, our global PR efforts this year included more social media engagement activities and blogger reviews. This resulted in increased media coverage and overall value. (Please see table below). The top three countries for media coverage are: Thailand (39.9%), UAE (18.45%), and China (7.67%).

Торіс	2015	2016	2017
Media visit	81	80	125
Interview	19	27	53
Press Release	58	47	46
Events	14	13	20
No. of coverage	3,041	2,400	3,230
Media value	674M THB	586M THB	885M THB

(Please note that these values represent Corporate PR efforts only and do not incorporate the coverage and value achieved by individual hotels).

### 3) Highlighted activities

Major corporate news announced in 2017 included the unveiling of our 36.7 billion baht investment, together with Central Pattana Public Company Limited (CPN), in our mixed-use project and new flagship hotel; as well as several releases detailing our new signings worldwide – each of which amplified the company's overall strategy for strategic and profitable growth.

We also highlighted Dusit's commitment to quality with a press release and press conference highlighting the company's success in becoming the first Thai-owned hospitality company to implement Total Quality Management systems across its entire portfolio of properties.

We also further highlighted Dusit's role as a hospitality 'pioneer' with a press release and press conference about the implementation of WeChat Pay at Dusit Hotels & Resorts in Thailand (one of the first hotel companies in the kingdom to adopt the system) to better serve our Chinese guests. And we demonstrated how Dusit is embracing disruption with news about the company's strategic partnership with FavStay.

Other promotion releases and events were sent and arranged throughout the year in line with the company's key achievements and updates.

Last but not least, Dusit became the most popular Thailand-based hospitality company on Facebook, with over 390,000 followers on the official Dusit Hotels & Resorts Facebook fanpage.

## Risk Factors

In today's rapidly changing and complex business environments, the Company and its subsidiaries are well aware that the magnitude of uncertainties and risks—either external forces or internal factors-can adversely affect the Company's reputation, success, and ultimately its existence in the business.

In attempts to mitigate such uncertainties to meet the most acceptable and appropriate level of risk exposure, the Company has, since 2006, established its Risk Management Committee and Risk Management Department to oversee the effectiveness of risk management implementation organization-wide under the framework of COSO (Committee of Sponsoring Organization of the Treadway Commission: COSO).

Nevertheless, all risk information described herein this report is not exhaustive; there can be either unprecedented risks. Investors should, therefore, be aware of such unidentified risks and their potential impacts. A due consideration should also be given prior to arriving at any investment decision.

### **Strategic Risks**

In line with its intention to ensure the sustainable growth of the Company and its subsidiaries, the organization's long-term strategies have been established with an emphasis on balancing, diversifying and expending businesses. However, the success of such strategies depends on the several business environments-both internal and external factors—which are unprecedented and uncontrollable. Consequently, the Company is exposed to the risks of not being able to achieve the intended strategies which are caused by:

### Risk from Revenue Reliance on Hotel Business

The Company's revenues are mainly contributed from hotel business; while other businesses generate additional revenue at a lesser amount. In 2017, the revenue from hotel business accounts for 82.41% of the total revenues; whereas those of education and other businesses account for 7.93% and 9.66% respectively. Therefore, the Company's ability to generate revenues and profits may vary according to economic, political and social uncertainties.

To cope with the risk of overreliance on hotel business, the Company has attempted to diversify its revenue stream by increasing the revenues from education and other businesses. Investment and New Business Department was formed in 2016 to aggressively strengthen the Company's portfolio to other potential businesses.

As for the hotel business, the Company has still embarked on increasing its hotel management services overseas especially in those promising regions, Middle East –United Arab Emirates, Eastern Asia –China, South Asia –India, including Europe and Africa, all of which are deemed major emerging markets with high purchasing power and potential growth. This will also help ensure a proper balance of revenue streams which are currently dominated by domestic hotels.

### Risk from Hotel Management Service

The Company has continuously expended its hotel management service in both domestic and overseas locations under the management agreement terms of 2-15 years. Therefore, the Company and its subsidiaries are inclined to encounter with the risks caused by the premature cancellation of the agreement, the denial to renew the management contract or changes in related rules and regulations, which will impact the Company's gross revenues.

In 2016 and 2017, the Company and its subsidiaries earned 2.72% and 2.85% of the total revenue from hotel management service. However, in response to this risk, the Company has leveraged its management standards-ranging from sales & marketing, operations, human resources, finance and information technology-to ensure its work efficiency, to enhance competitiveness and to strengthen the brand recognition worldwide. In addition, the Company and its subsidiaries have carefully considered adding new terms and conditions of the management agreement in order to reduce the impact from such risks

### Risk from New Investment Projects

Besides its hotel and education business expansion plan, the Company intends to venture into new businesses inside and outside Thailand. Therefore, the Company is exposed to various risks which are inherent to new business development projects---such as, not being able to find a new business/project in a desired location, project delay, or lower-than-expected return on investment. In addition, a considerable number of factors—be it economic, societal, political, competitive, consumer behavioral change and regulatory complexity—can affect the success of new projects. This includes the level of the Company's expertise in managing new businesses.

Nevertheless, to mitigate such risks, feasibility studies for each project are conducted, prior to the investment, by external investment experts. Furthermore, the Company has established its own Investment & New Business Department to be in charge of new business development which is led by seasoned management team.

### Risk from High Competition

Inarguably, Thailand's hospitality and service industry has, in recent years, seen the increasingly high competition from both domestic and overseas hotel brands. In 2017, the Company and its subsidiaries have been exposed to the risk caused by the competitive market especially from Thai competitors such as Centara Group, Minor Hotel Group, Onyx Hospitality group and The Erawan group—all of which also accentuate their Thainess as the unique selling point for their hotel management service expansion around the globe.

Furthermore, the Company has also competed with international hotel chains, whose competitive advantages have been strengthened by acquiring or merging with their peer competitors. To cite an example, the acquisition of Starwood by Marriott and FRHI by Accor Hotel has apparently enhanced their reach to worldwide market, making them even more far-reaching hotel chains. In addition, the already-intensifying competition has been aggravated by a variety of alternative accommodations—Airbnb, Timeshare Rental, Serviced Apartment and Homestay, for instance—which are gaining more popularity due to their price and flexibility to accommodate the need of customers. The dramatic growth of Online Travel Agents, Agoda, Booking.com and Expedia has, likewise, affected the Company's market shares.

In response to such risks, the Company has placed great emphasis on accentuating its competitive advantages as being a pioneer of Thai centric 5-star hotels in the country. However, in order to remain competitive in the market, the Company has been renovating its hotel facilities on a regular basis. In terms of sales and marketing, regional offices have been opened in different locations, e.g., India, China, Hong Kong and Germany, to increase distribution channels as well as to enhance Dusit brand awareness. The company has also joined hand with well-known business partners and developed its customer loyalty program to understand—so that can retain—customers, all of which are to help enhancing the Company's competitiveness.

### Technology Risk

In nowadays markets, technology utilization in business plays a vital role in differentiating an organization from its competitors. Hospitality industry, likewise, cannot escape from this mobilization to survive in the fierce market. It can be seen that international hotel chains have put efforts in applying or introducing new technologies to reduce work process as well as to enhance customer experiences. For example, SPG has introduced Keyless Mobile Check In that allows its guests to check in effortlessly; meanwhile, Hilton, Starwood and IHG are partnering with Uber to allow mobile check-in and digital key through Uber application.

Therefore, the Company is exposed to the risk of not being able to utilize new technologies in a timely manner, resulting in the loss of opportunity or competitive advantage. This risk also includes the chance of choosing technologies that do not fit with the size or the need of the Company.

To mitigate such risks, the Company has developed IT Strategic Plan to support technological needs and leverage technological resources in order to achieve the Company's future goals. Moreover, an experienced management team is employed to analyze customer needs and behavior to develop IT programs that suit the nature of business. IT Committee was also established to ensure that all IT acquisitions will best serve the company and customers.

### Risk from Customer Trend and Behavior

Customer behaviors—lifestyle, interest, purchasing behavior, and information access, for example—have always been changing; and such factors can significantly affect their decision making in selecting and purchasing products and services. Besides the above mentioned factors that influence customer behavior, the Company is fully aware that internet is one of the most influential factors that can shape customers perception and behavior. It also allows customers an easy access to information that will be used for making decision. Therefore, the Company is exposed to the risk of changing customer behaviors which can affect the demands of the Company's products and services, hence the Company's revenues and profits.

To mitigate such risks, the Company has been engaging in managing customer information—behavior, demands and needs, in particular—in order to adjust its business strategies. For example, existing customer information is collected and analyzed in order to develop products and services that can accommodate their needs. In addition, Customer Relationship Management (CRM) system has been developed as an analytical tool for customer behavior analysis as well as a tool to create a positive relationship with customers. Furthermore, the Company also focuses on developing managing reputation through online channels, improving the Company's website and smartphone applications that will facilitate customers effectively.

### Risk from Demographic Changes

Having been in the business over the decades, the Company has earned trust and credibility from its customers who have become long-term loyal guests. However, the Company is exposed to the risk of losing customers who are Baby Boomers due to their age-related physical conditions that limit their ability to travel; whereas, younger customers with higher purchasing power including teenagers may not be familiar with Dusit name or have a different traveling style that does not match with our brands.

In addition, according the research conducted by Office of National Economic and Social Development Board in 2016, the total population of Thailand will reach 65.5 million, of which 17.82 percent is child population (decreasing), 65.67 percent is working age population and 16.90 percent is senior population (increasing). Therefore, in a long term, the Company's education business may be effected by the decrease of birth rate.

To mitigate the risk caused by such demographic change, the Company has developed more brands to help accommodate the needs of different age ranges and lifestyle. To cite an example, dusitD2 brand was developed to attract younger travelers. More brands are to be introduced to tap different markets such as senior, teenage and working age markets. Furthermore, the Company has revamped Dusit's brand images to make it more modern looking and put greater efforts on digital and online marketing which can better reach today's consumers.

### **Operational Risks**

The Company and its subsidiaries has continuously improved its working system and procedures to ensure the highest degree of efficiency in line with the Company's expansion. Nevertheless, the Company is exposed to the risk caused by the failure of such system or procedures to owing to various factors as follows:

### Risk of Recruiting and Retaining Talents

Owing to the country's increasing demand of manpower in hospitality industry coupled with the Company's strategy to expand its hotel management service, the Company is exposed to the risk of recruiting and retaining qualified talents—both managerial and operational level—to accommodate the growth of the Company. Furthermore, as talent markets around the globe have become aggressive, the chance of the Company to lose its experienced and skillful talents over competitors is higher.

To mitigate the foreseen risks related to manpower demand, the Company has conducted a manpower need analysis and implemented Employee Development Plan as well as Succession Plan to accommodate the Company's future expansion within the specified timeframe. Besides, in order to be competitive in the labor market, salary and benefit surveys are conducted in comparison to those of competitors to review and adjust the company's salary structure on a regular basis. However, the Company has employed executives from well-known international and local hotel chains to leverage the Company's ability to compete in an international level.

### IT Risk

The Company has a policy to collect and store customer information to be utilized for service improvement and to support decision making related to various operations. In addition, the Company has also invested in IT operating systems to help enhance the effectiveness of internal administration. Consequently, the Company is exposed to the risk of data breach or system interruption—either by natural catastrophe, system errors or manmade disasters.

To mitigate the aforementioned risks, the Company has timely backed up critical data and stored them offsite (Offsite Data Backup). Business Contingency Plan and Data Recovery Plan were developed and communicated to all concerned for practice. Besides, the Company has purchased—and therefore is insured under—Cyber Insurance to reduce the impact of loss caused by possible cybercrime.

### Business Interruption Risk

Hospitality industry is known to be vulnerable to numerous business environments—naturally triggered or manmade risks, ranging from flood, earthquake, tsunami, epidemic, fire, terrorist attack, political unrest to conflicts between countries, all of which can cause the Company's business and its operations to be interrupted.

In attempt to mitigate business interruption risk, the Company has placed great importance on crisis management by establishing Crisis Management Committee together with the development of Crisis Management Manual that covers all possible threats. Furthermore, various training and drills are regularly conducted to ensure the preparedness of staff. Moreover, the Company has also implemented its Business Continuity Plan that allows business resilience and continuity. Lastly, the Company also purchased multiple insurance plans—Industry All Risk, Political Violence and Public Liability, for instance—to minimize the loss from business interruption.

### **Financial Risks**

In response to its business expansion plan, it is vital that the Company's financial resources are sufficiently optimized and leveraged to ensure a balance between investments and returns as well as an ability to compete. However, in order to seek or increase its financial capital, the Company is exposed to financial risks as follows:

### • Interest Rate Risk

As of 31 December 2017, the Company and its subsidiaries has current liabilities with financial institutions, worth of Baht 1,676.24 million, and are inclined to make additional loans for further renovation and new investment projects. Therefore, the Company is exposed to risks caused by the fluctuation of interest rate in the future. If so, it will subsequently have a direct impact upon the Company's performance and cash flow.

However, the Company has also been mitigating this risk by closely monitoring the fluctuation of interest rate to effectively manage such financial risk.

### Credit and Financial Security Risk

As of December 31, 2017, the Company and its subsidiaries have long-term loan worth in total of Baht 1,132.54 million, of which Peso 991.68 million is for Philippine Hoteliers, Inc. (the outstanding amount is Peso 651.5 million), USD 41.50 million is the long-term loan of the Company's subsidiary for investing in Dusit Thani Maldives (the outstanding amount is USD 14.05 million) and Baht 116.2 million for the long-term loan of Dusit Excellence Co., Ltd. formerly known as Dusit Thani Hotel School (the outstanding amount is Baht 115.45 million).

For both long-term loans which are made under Peso and US Dollar, the Company has made an agreement with the creditors that throughout the loan period, the Company shall maintain its debt-to-equity ratio not more than 2:1 and 1.75:1 respectively. If the Company fails to abide with such obligation, it shall be deemed the Company in breach of loan agreement and the creditors may declare the loans to be canceled and any outstanding amounts under the agreement are immediately due and payable. If so, the Company and its subsidiaries cash flow and, ultimately, operation can be affected.

However, as of December 31, 2017, the Company has settled the aforementioned principals including the interests thereof in a timely manner. In addition, the Company has maintained its debt-to-equity ratio at 0.85:1, which is in accordance with the conditions stipulated in the loan agreement and the Company's debt-to-equity policy not to exceed 1:1.

### **Compliance Risks**

### Regulatory Compliance Risk

As part of the good governance, the Company and its subsidiaries is committed to adhering to governing laws, rules and regulations of the countries in which the Company has operated—or to be operating in the future. The Company has also paid attention to the obtainment of all relevant permits and licenses. Nevertheless, due to regulatory complexity and changes that may be brought about unprecedentedly, the Company is still exposed to compliance risks especially when operating in an unfamiliar country or when expanding its educational business which is governed by numerous regulations.

To mitigate the said risks, the Company has enforced its auditing and compliance related functions to perform internal auditing on a regularly basis. This is to ensure that all permits and licenses are obtained; governing regulations, abided. As for overseas regulations, international law firms are employed to ensure that all operations are stringently in compliance with local regulations.

1.1 The Company is determined to implement and develop a proper energy management approach. Energy conservation is set as a part of the Company's operation to be in compliance. Energy conservation is part of the company's operations in line with other laws and regulations associated.

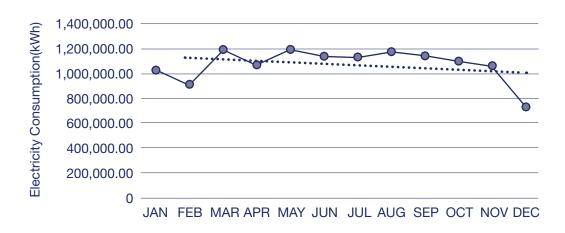

- 1.2 The Company shall continue to improve the efficiency of its energy consumption and in line with business needs, shall use technology and purchase materials with qualification of energy saving and shall procure suppliers have good energy and environmental practices in accordance with the laws and regulations of the company.
- 1.3 The Company shall set up conservation plan and goals each year and shall communicate to all employees properly and correctly. For the 2017, the goal was to reduce the total energy consumption by at least 3%.
- 1.4 The Company considers that management and employees at all levels have responsibility to energy conservation. They must adhere to the established measures, monitor, examine and report to the energy management team.
- 1.5 The Company shall provide necessary support including human resources, budget, working time, training and participation in presenting ideas to develop energy performance.
- 1.6 The Management and the energy management team shall review and revise the energy policy, targets and plans every year.

#### **Electricity**

In order to reduce electricity use while not compromising our international customer service standards, we are planning to replace incandescent light bulbs with LED light bulbs, in consideration of the environment, within five years from 2012 onwards, and install intelligent lighting control systems in all our hotels in Thailand including system set up of screw-type chillers with variable speed controls, heat-exchange 'heat – pumps', solar water heating systems, use LPG instead of diesel to heat water, and change motors and control systems or replace old appliances with new ones. Employees involved with laundry, kitchens and lifts are trained and educated on how to decrease electricity use in a practical way.

Furthermore, we run energy saving campaigns encouraging personnel to take the stairs instead of lifts, turn off computers during the lunch break while they are not using them, use natural light and set automatic shutdown times on air conditioners. We also invite customers and employees to join the Earth Hour program every year.

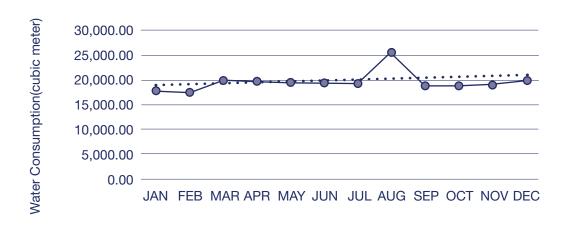

#### **2017 Electricity Consumption**

#### **Water Consumption**

Since hotel businesses require large amounts of water, we strive for sustainable water management while meeting international customer service standards. Every hotel has concrete water saving measures, such as water pipe and water meter maintenance and replacement, water-saving sanitary ware, faucet and shower installations, use of salt chlorinators for swimming pools and providing water efficiency training to employees. Dusit Thani Hotel Group has ongoing water efficiency plans and activities in order to continuously reduce water use.

# **2017 Water Consumption**

#### 2 Use of Environmentally Friendly Materials

The Company gives importance to selection of materials used in hotels and guest rooms which are environmentally friendly, for example the use of products made from recycled materials.

#### 3. Waste Management

The Company and hotels in the chain promote their employees to reduce waste under the concept of 3Rs.

- Reduce: to minimizes the amount of waste that can occur, such as the selection of products with the least environmental impact.
- Reuse: to use materials again, such as printing on both sides of paper, use of packaging to contain other equipment.
- Recycle: to convert waste materials into new materials and objects. The Company encourages
  the employees to separate and collect garbage that can be recycled; e.g. glass, paper, plastic for
  distribution to concerned operators.

#### **Summary of Environmental Operations in 2017**

## Management Discussion and Analysis 2017

### **Executive Summary**

The Company reported net profit of THB 267 million in 2017 driven mainly by the gain on sale of Dusit Princess Korat.

The Company reported total revenue of THB 5,570 million in 2017, an increase of 2.7% yoy, mainly driven by a gain on sale of Dusit Princess Korat of THB 325 million in correspondence to the group's asset restructuring. Without this non-recurring gain, total revenue was THB 5,245 million, a 3.3% decrease from 2016. The decline was attributable to the renovation of three hotels under Dusit Thani brand, and caused by a temporarily weaker demand from catering and convention during the mourning period and the royal funeral of King Bhumibol Adulyadej.

Earnings before interest, tax, depreciation and amortization (EBITDA) was THB 1,099 million in 2017, an increase of 19.6 % yoy, due mainly to a gain on sales of Dusit Princess Korat despite lower revenue and higher administrative expense to support business expansion. Without the non-recurring profit related to sale of Dusit Princess Korat, core EBITDA was THB 806 million, a 12.3% decrease from 2016.

The Company reported net profit of THB 267 million in 2017, a growth of 134.0% yoy. Net profit excluding gain on the sale of Dusit Princess Korat was THB 64 million, a decrease of 44.3% yoy.

### Major Developments in 4Q17

The SEC approved the issuance by offering for sale of 409.4 million DREIT trust units as listed securities on the SET and start trading on the 15 December 2017. The conversion of DTCPF to DREIT is a part of the Company's business plan to strengthen financial capability.

Dusit Thai Properties PCL, the Company's subsidiaries sold Dusit Princess Korat Hotel, comprising land, building and other related assets, at THB 565 million. Gain before deducting relating costs was THB 325 million.

### **Business Segment Performance**

In 2017, total revenue was THB 5,570 million, decreasing by 2.7 % from last year. Total revenue and EBITDA breakdown is as follows:

### **Revenue Breakdown**

**EBITDA Breakdown** 

Unit: THB mn	2017	2016	% Chg	Unit: THB mn	2017	2016	% Chg
Hotel	4,590	4,814	-4.7	Hotel	855	904	-5.4

Total	5,570	5,425	2.7	Total	1,099	919	19.6

In 2017, Hotel business and education business accounted for 82% and 8% of total revenue. Other business, including gain on sale of Dusit Princess Korat Hotel and lease right assignment fee in the amount of THB 90 million, contributed the remaining 10%. For the year 2017, Hotel business and education business represented 78% and 5% of total EBITDA respectively, while other business contributed the remaining 17%.

### **Hotel Business**

Total revenue from hotel business was THB 4,590 million in 2017, a decrease of 4.7% yoy, comprising owned hotel, hotel management, and share of profits/losses from investments.

### Owned Hotel

	2017	2016	% Chg
Occupancy (%)	73.3	72.2	1.5
ADR (THB/night)	3,597	3,727	-3.5
RevPar (THB/night)	2,636	2,690	-2.0

Revenue from owned hotel was THB 4,382 million in 2017, decreasing by 4.5% from 2016, contributed by

- Owned hotels in Thailand reported a decreased revenue of 4.5% from the previous year, mainly
  attributable to lower occupancy and hotel's functions due to an adverse impact of a year-long
  national mourning on domestic demand, together with a drop in occupancy of Dusit Thani
  Hua Hin amidst an intense market competition, and the renovation of Dusit Laguna Phuket and
  Dusit Thani Pattaya.
- Revenue from the overseas hotel declined by 4.2%, compared to 2016, primarily due to the renovation of Dusit Thani Manila despite better performance of Dusit Thani Maldives from higher occupancy.

### Hotel Management

Revenue from hotel management was THB 224 million, a drop of 14.3% yoy mainly because the Company resolved to settle income of Dusit Thani Guam Resort arising from 2015 operation into 2016. However, Dusit Thani Guam Resort, Dusit Thani Lakeview Cairo, and Dusit Thani Abu Dhabi delivered stronger operational performance from 2016.

### Share of Profits/Losses from Investments

Share of losses from investments amounted to THB 17 million in 2017, a lower loss by THB 18 million, compared to THB 35 million share of losses in 2016, mainly driven by a significant decline in loss from Dusit Fudu Hotel Management in China due to an effective cost control.

The Company reported EBITDA from hotel business of THB 855 million in 2017, a 5.4% decrease from 2016. The decline was attributable to 1% decrease in EBITDA from owned hotels due to lower revenue, and higher hotel personnel expenses, which incurred to support the expansion of hotel management business in which the Company has successfully secured the management contracts. The company's EBITDA margin was 18.6%, a slight decline from 18.8% in 2016.

In 2017, depreciation and amortization decreased by 11.6% yoy to THB 536 million, due to the change of estimated useful life of the assets under Dusit Thani Manila to reflect their future economic benefits and to be in line with the Company's depreciation policy. In addition, some assets under other hotels have been fully depreciated.

### **Education Business**

In 2017, revenue from education business including the share of profits from investments totaled THB 442 million, a decrease of 6.8% yoy, mainly from the repositioning of Education Business by closing Dusit Thani Hotel School (DTHS) in 4Q17 to utilize DTHS's building and facilities as a research center for the development of culinary and hospitality programs under Dusit Thani Excellence Center (DTEC) led by Dusit Thani College.

Share of profits from investments in 2017 was THB 13 million, a 56.7% decrease yoy, primarily attributable to a decrease in number of students at Le Cordon Bleu Dusit, which was planned for the relocation after the closure of Dusit Thani Bangkok Hotel, following the development plan of the Mixed-use project.

In 2017, the Company reported EBITDA from education business of THB 50 million, decreasing by 55% yoy, mainly attributable to increase in personnel and marketing expenses to improve its capabilities for business expansion and strengthening brand positioning in the market.

Depreciation and amortization decreased by 12.1% from 2016 to THB 47 million as some assets have been fully depreciated.

### **Other Business**

Revenue from other business boosted by 295.6% yoy to THB 538 million in 2017, due mainly to THB 325 million gain on sales of Dusit Princess Korat following the group's asset restructuring and THB 90 million lease right assignment fee.

In 2017, EBITDA from other business amounted to THB 194 million, a 301.1% increase yoy, primarily from an increase in other revenues as aforementioned. An increase in administrative expenses was due to (1) legal and financial advisory fee related to the development of Mixed-use project and group restructuring, (2) higher personnel expenses to support the expansion of the hotel and education businesses as well as new related businesses, and (3) land and building transfer fee incurred from the sales of Dusit Princess Korat.

### **Financing Cost**

Financing cost was THB 59 million in 2017, a decrease of 19.3% yoy due to the Company's long-term loan repayment capacity supported by solid operation, and the impact of strengthened Baht currency, which together helped offset an increase in interest rate.

### Earnings before interest, tax, depreciation and amortization (EBITDA)

EBITDA was THB 1,099 million in 2017, an increase of 19.6 % yoy, mainly due to a gain on sales of Dusit Princess Korat. A drop in revenue and an increase in administrative expense was to support future business expansion. Without the non-recurring profit related to sale of Dusit Princess Korat, core EBITDA was THB 806 million, a 12.3% decrease from 2016.

### **Net Profit**

The Company reported net profit of THB 332 million in 2017, a growth of 117.4% yoy from the aforementioned factors. Net profit attributable to the owners of the Company was THB 267 million, a growth of 134.0% yoy. Excluding gain on the sale of Dusit Princess Korat, core net profit declined by 44.3% yoy to THB 64 million.

### **Financial Position**

### **Assets**

As of 31 December 2017, the Company reported total assets of THB 9,978 million, an increase of THB 945 million or 10.5% from 31 December 2016.

- Current assets increased by THB 364 million mainly due to (1) an increase in cash and cash
  equivalents of THB 151 million, (2) an increase in short-term investment from fixed deposit of
  subsidiaries of THB 90 million, and (3) an increase in trade and other receivables of THB 74 million.
- Non-current assets increased by THB 581 million. This was mainly from (1) an increase in prepaid rental of land and building of the Mixed-used project to The Crown Property Bureau of THB 771 million, (2) an increase in available-for-sale investments of THB 111 million resulting from fair market value adjustment, and (3) a decrease in property, plant, and equipment (PP&E) and investment properties of THB 423 million from depreciation and the sales of Dusit Princess Korat Hotel of THB 228 million despite an additional investment in PP&E.

### **Liabilities**

As of 31 December 2017, the Company reported total liabilities of THB 4,098 million, an increase of THB 419 million or 11.4% from 31 December 2016.

- Current liabilities increased by THB 109 million mainly from (1) an increase in bank overdraft and short-term loan from financial institutions of THB 82 million, (2) an increase in current portion of long-term loan of THB 56 million, (3) an increase in income tax payable of THB 49 million, and (4) a decrease in trade and other payables of THB 90 million.
- Non-current liabilities increase by THB 310 million mainly due to (1) the received deposit from building lease arrangement for the Mixed-use project of THB 492 million, and (2) a decrease in net long-term loan of THB 133 million.

### **Shareholders' Equity**

As of 31 December 2017, shareholders' equity was THB 5,881 million, an increase of THB 527 million or 9.8% from 31 December 2016. Shareholders' equity was contributed by (1) the equity attributable to owners of the Company of THB 4,824 million, increasing by THB 235 million or 5.1%, and (2) non-controlling interest amounted to THB 1,057 million, increasing by THB 292 million or 38.2%.

### **Cash Flows**

As of 31 December 2017, cash and cash equivalents was THB 1,021 million, increasing by THB 169 million and negative effect of exchange rate changes on cash and cash equivalents of THB 19 million from THB 870 million as of 31 December 2016.

### **Sources of Funds**

The company reported net cash inflow of THB 2,042 million, mainly comprising

- Net cash received from operation of THB 592 million was from cash inflow for revenue from sales and services, netted off with cash outflow for expenses and income tax payment
- Cash inflow from investing activities of THB 1,202 million was due primarily to cash received from
  the sales of hotel and other assets amounted to THB 567 million, cash deposits received from
  building lease arrangement of THB 492 million, and cash received from capital reduction of THB
  143 million in relation to the conversion of DTCPF into DREIT.
- Cash inflow from financing activities of THB 250 million mainly owing to a capital increase from non-controlling interest in the Company's subsidiaries for the development of the Mixed-use project of THB 289 million.

### **Uses of Funds**

The company reported net cash outflow of THB 1,875 million, mainly comprising

- Prepaid payment for land and building lease of THB 973 million
- The purchase of equipment of THB 696 million
- Deposit for hotel management right in Singapore amounted to THB 75 million
- Investment in associates, joint ventures and others of THB 99 million

### 2018 Outlook

### Continued robust growth of Thailand Tourism industry

2017 Thailand tourism revenue increased by 9.5% from 2016 to THB 2.75 trillion, accounted for approximately 20% of GDP, contributed by revenue from international and domestic tourists of THB 1.82 trillion and THB 0.93 trillion respectively. International tourist arrivals reached 35.4 million, setting a new record with an 8.8% increase, of which tourist arrivals from China represented the largest contribution.

In 2018, tourism industry is expected to continue an impressive growth on the back of government initiatives. The Tourism Authority of Thailand (TAT) has launched the marketing campaign "Amazing Thailand Tourism Year 2018" supported by ambitious marketing initiatives and activities, including Sports tourism, Gastronomy tourism, Maritime tourism, Wedding and Honeymoon tourism, Medical and Wellness tourism, Community-based tourism, and Leisure tourism. TAT also promote the secondary city tourism campaign. The Fiscal Policy Office (FPO) estimate the international tourist arrivals to grow by 8% to 38.2 million. FPO target tourism revenue to reach THB 3.05 trillion in 2018 contributed by revenue from international and domestic tourists of THB 2.05 trillion and THB 1 trillion, respectively.

### Uplift hotels in Thailand to maintain competitive advantages

The Company and its subsidiaries' hotel assets have aged after a certain period of time, which potentially causing an adverse impact on operational performance and profitability. Consequently, the Company has established a plan to renovate the hotels to enhance its positioning and strengthen its competitive advantages in the market. In 2017, the Company has completed the renovation of three hotels under Dusit Thani brand located in Pattaya, Phuket and Manila. In 2018, the Company has scheduled three hotel renovation during off season, including Phuket, Maldives and Pattaya, with an estimated CAPEX of THB 255 million to improve the Company's overall competitiveness in an expansive tourism industry.

### Dusit Thani Bangkok to remain open throughout 2018

Dusit Thani Bangkok remains in operation until 5 January 2019, which was formerly scheduled to operate through April 2018. This will allow more time for the Company and its partner to add greater detail in design and development, ensuring the new project well embraces cultural heritage, innovative design, green concept in surrounded area to be well connected to Lumpini park, as well as create direct access to streamlined nodes of MRT, BTS and mass transit rail systems to alleviate traffic in Silom area and proximity.

### Asset-light model gearing towards hotel management business

The International Monetary Fund (IMF) has revised 2018 global growth forecast upward to 3.9% from the former estimate of 3.7%. The revision reflects higher-than-expected growth momentum in several countries in the previous year and the continued pickup in global growth, specifically in Emerging Market and Developing Economies, which was expected to grow 4.9% in 2018 from 4.7% in 2017.

Supported by the positive global outlook, the Company expects to expand hotel management and franchise business to spearhead growth in 2018, targeting to open 10 new hotels to be managed by Dusit International in Vietnam, Singapore, Bhutan, Philippines, Bahrain, and China. The expansion will increase number of rooms and create well-balanced revenue stream from domestic and international portfolio, aligning to the Company's long-term strategic direction. Below highlights the Company's growth outlook by region:

### **Asia Pacific:**

- Positive demand growth outlook in China and India market. Thailand has become more popular among Indian for wedding ceremony and honeymoon destination. Expecting to benefit from the growth, the company has opened global sales offices in Mumbai last year in response to an expansive demand from MICE and tourists in this market.
- A favorable outlook in the Philippines market supported by a continuous growth of international arrivals. The Company expects Dusit Thani Manila to fully benefit from hotel renovation last year, achieving an increase in ADR and RevPAR. In addition, the Company targets to aggressively expand hotel management business in this market in near term.
- The Company anticipates Maldives tourism industry to continue to benefit from a stronger demand from Europe, India, and South Korea, which will help offset declining tourists from China. Amidst political instability and the expected Presidential and Parliamentary election in 2018 and 2019 respectively, the Company is confident in its ability to secure South Korean and Chinese customer base in this market.
- In 2018, the Company expects to see increasing South Korean tourists into Guam offsetting a falling demand of tourists from Japan. This should support its hotel revenue growth in Guam despite an escalated political tension between North Korea and The United States.

### Middle East and Africa:

Middle East and Africa is experiencing a drop in revenue from oil and gas export, causing an adverse effect on domestic consumption and tourist arrivals due to intense competition among 3-4 star hotels and AirBnB legalization. The Company is being aware of the potential threat and plans to increase the numbers of corporate accounts and return guests with the focus on high yield segments.

### Focus on education business expansion

Education business is currently under group restructuring plan, implemented in 2017 and targeted to be completed in 3-5 years. The plan involves rebranding by changing the logo to convey an in-trend and unique identity of the Dusit's education business. In 2018, Dusit Thani College plans for the renovation of Bangkok campus (expected completion in 1Q19) and the construction of new cooking studio at Seacon Square (expected commencement in mid-2018), in response to a growing demand for talents in the food industry supported by a robust growth of the tourism industry.

### The development progress of Mixed-use project

Mixed-use project is developed by the Company's subsidiary, Vimarn Suriya Company Limited, a joint venture between the Company and Central Pattana PLC (CPN). The project is currently under the stage of demolishing the office and commercial buildings on the extended land adjacent to Dusit Thani Building and the parking area of Dusit Thani Bangkok Hotel. 2018 will be a year of developing design concept and attaining construction permit. Dusit Thani Bangkok Hotel is scheduled to be demolished after 5 January 2019. The successful of the landmark Mixed-use project will bring the Company an opportunity to enter into real estate development and retail business adding revenue diversification and minimizing concentration risk in hotel business portfolio. 2018 Capital expenditure (CAPEX) is estimated at THB 270 million.

### 2018 Guidance

The Company expects 2018 **core revenue** to grow by 5% driven by higher revenue from room and F&B mainly from Dusit Thani in Phuket, Manila and Hua Hin. **EBITDA margin** is estimated around 15% close to 2017 core EBITDA margin of 15.3%. **Consolidated CAPEX** is estimated at THB 355 million for the hotel renovation in Maldives, Pattaya and Srinakarin; the renovation of Dusit Thani College; the investment in IT system and software as well as the head office relocation.

Refer to the notes 3, 12 and 15 to the consolidated and separate financial statements

### The key audit matter

The Group had significant property, plant and equipment and investments in subsidiaries in the financial statements. Economic benefits of the assets depend on future profitable operations which impact property, plant and equipment of the Group and investments in subsidiaries in the separate financial statements. Each subsidiaries business unit is determined as separate cash generating units. Management performed an impairment indicator assessment over property, plant and equipment and investments in subsidiaries based upon the performance of each business unit and reviewed recoverable amount by using projection of future cash flows. The projection of future cash flows requires significant judgment and is inherently uncertain. As a result, this is a focus area for my audit.

### How the matter was addressed in our audit Our audit procedures included

My audit procedures included:

- Understanding and evaluating management's process in assessing the impairment indicators and determining the recoverable amount of property, plant and equipment and investments in subsidiaries.
- Testing mathematical accuracy of the discounted future cash flow model used.
- Considering the key assumptions underlying the estimate of the value from using discounted future cash flows by taking into account historical data of the Group, operational plan and industry data.
- Assessing the adequacy of disclosures in accordance with the related Thai Financial Reporting Standards.

### Emphasis of Matter

I draw attention to notes 2 and 15 to the financial statements describing the effect of change in the estimated useful lives of plant and equipment of one of the Company's hotels from 1 May 2017 onward as a result of the resolution of the annual general shareholders' meeting of the Company held on 27 April 2017 which approved the investment to develop a mixed-use property project. Therefore, the estimated useful lives of the related assets were reviewed by management considering the expected pattern of consumption of the future economic benefits. My opinion is not modified in respect of this matter.

### Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated and separate financial statements and my auditor's report thereon. The annual report is expected to be made available to me after the date of this auditor's report.

My opinion on the consolidated and separate financial statements does not cover the other information and I will not express any form of assurance conclusion thereon.

In connection with my audit of the consolidated and separate financial statements, my responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated and separate financial statements or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

Responsibilities of Management and Those Charged with Governance for the Consolidated and Separate Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated and separate financial statements in accordance with TFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated and separate financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated and separate financial statements, management is responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group and the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's and the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated and Separate Financial Statements

My objectives are to obtain reasonable assurance about whether the consolidated and separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with TSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and separate financial statements.

As part of an audit in accordance with TSAs, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the consolidated and separate financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the consolidated and separate financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group and the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated and separate financial statements, including the disclosures, and whether the consolidated and separate financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business
activities within the Group to express an opinion on the consolidated financial statements. I am responsible
for the direction, supervision and performance of the group audit. I remain solely responsible for my audit
opinion.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the consolidated and separate financial statements of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### 1 General information

Dusit Thani Public Company Limited, the "Company", is incorporated in Thailand and has its registered head office at 946 Dusit Thani Office Building, 5th floor, Rama IV Road, Silom, Bangrak, Bangkok.

The Company was listed on the Stock Exchange of Thailand in April 1975.

The Company's major shareholders during the financial year were Thanpuying Chanut Piyaoui and related persons (49.94% shareholding).

The principal activities of the Company and the Group are to operate hotel business, hotel management and education. Details of the Company's subsidiaries, associates and joint ventures as at 31 December 2017 and 2016 are given in notes 11, 12 and 13.

### 2 Basis of preparation of the financial statements

### 2.1 Statement of compliance

The financial statements are prepared in accordance with Thai Financial Reporting Standards (TFRS); guidelines promulgated by the Federation of Accounting Professions ("FAP"); and applicable rules and regulations of the Thai Securities and Exchange Commission.

The FAP has issued new and revised TFRS effective for annual accounting periods beginning on or after 1 January 2017. The initial application of these new and revised TFRS has resulted in changes in certain of the Group's accounting policies. These changes have no material effect on the financial statements.

In addition to the above new and revised TFRS, the FAP has issued a number of other new and revised TFRS which are effective for annual financial periods beginning on or after 1 January 2018 and have not been adopted in the preparation of these financial statements.

### 2.2 Basis of measurement

The financial statements have been prepared on the historical cost basis except for the following items,

*Items*Available-for-sale financial assets
Net defined benefit liabilities

Measurement bases
Fair value
Present value of the defined benef

Present value of the defined benefit obligation, as explained in note 24

### 2.3 Functional and presentation currency

The financial statements are presented in Thai Baht, which is the Company's functional currency. All financial information presented in Thai Baht has been rounded in the notes to the financial statements to Baht unless otherwise stated.

### 2 Basis of preparation of the financial statements (Continued)

### 2.4 Use of judgements and estimates

The preparation of financial statements in conformity with TFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Information about assumption and estimation uncertainties that have a significant risk of resulting in a material adjustments to the amounts recognised in the financial statements is included in the following notes:

Notes 12, 14	Testing of Impairment about utilisation of key assumption for valuing recoverable
and 15	amount
Note 18	Recognition of deferred tax assets: availability of future taxable profit against which tax losses carried forward can be used
Note 24	Measurement of defined benefit obligations: key actuarial assumptions and
Note 39	The revaluation of financial instruments

### Measurement of fair value

A number of the Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Group has an established control framework with respect to the measurement of fair values. This includes a valuation team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values, and reports directly to the chief financial officer.

The valuation team regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the valuation team assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of TFRS, including the level in the fair value hierarchy in which such valuations should be classified.

Significant valuation issues are reported to the Group Audit Committee.

When measuring the fair value of an asset or a liability, the Group uses market observable data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or liability might be categorised in different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

### 2 Basis of preparation of the financial statements (Continued)

The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in the following notes:

### Change in accounting estimate

From 1 May 2017, the Company changes the estimated useful lives of plant and equipment of one of the Company's hotel as a result of the resolution of the annual general shareholders' meeting of the Company held on 27 April 2017 which approved the investment to develop a mixed-use property project. The operation of one of the Company's hotels was expected to be ceased in order to develop in the mid of 2018. However, in December 2017, the Company's management has postponed the ceasing of hotel operations to early year 2019. Therefore, the estimated useful lives of the related assets were reviewed by management considering the expected pattern of consumption of the future economic benefits.

The effect of the change in estimate results in increasing in depreciation for the year ended 31 December 2017 of Baht 18.64 million. Additional depreciation of Baht 6.99 million is expected to have an effect in future periods.

### 3 Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

### 3.1 Basis of consolidation

The consolidated financial statements relate to the Company and its subsidiaries (together referred to as the "Group") and the Group's interests in associates and joint ventures.

### Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

Non-controlling interests

At the acquisition date, the Group measures any non-controlling interest at its proportionate interest in the identifiable net assets of the acquiree.

Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions

### 3 Significant accounting policies (Continued)

Loss of control

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related non-controlling interests and other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured at fair value when control is lost.

Interests in equity-accounted investees

The Group's interests in equity-accounted investees comprise interests in associates and joint ventures.

Associates are those entities in which the Group has significant influence, but not control or joint control, over the financial and operating policies. A joint venture is an arrangement in which the Group has joint control, whereby the Group has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

Interests in associates and joint ventures are accounted for using the equity method. They are recognised initially at cost, which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of the profit or loss and other comprehensive income of equity-accounted investees, until the date on which significant influence or joint control ceases.

Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income or expenses arising from intra-group transactions, are eliminated. Unrealised gains arising from transactions with equity-accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

### 3.2 Foreign currencies

Foreign currency transactions

Transactions in foreign currencies are translated to the respective functional currencies of Group entities at exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated to the functional currency at the exchange rate at the reporting date.

Non-monetary assets and liabilities measured at cost in foreign currencies are translated to the functional currency at the exchange rates at the dates of the transactions.

Foreign operations

The assets and liabilities of foreign operations are translated to Thai Baht at the exchange rates at the reporting date.

The revenues and expenses of foreign operations are translated to Thai Baht at rates approximating the exchange rates at the dates of the transactions.

### 3 Significant accounting policies (Continued)

Foreign exchange differences are recognised in other comprehensive income and accumulated in the translation reserve in equity until disposal of the investment, except to the extent that the translation difference is allocated to non-controlling interest.

When a foreign operation is disposed of in its entirety or partially such that control, significant influence or joint control is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal. If the Group disposes of part of its interest in a subsidiary but retains control, then the relevant proportion of the cumulative amount is reattributed to non-controlling interests. When the Group disposes of only part of an associate or joint venture while retaining significant influence or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

When the settlement of a monetary item receivable from or payable to a foreign operation is neither planned nor likely in the foreseeable future, exchange gains and losses arising from such a monetary item are considered to form part of a net investment in a foreign operation and are recognised in other comprehensive income, and presented in the foreign currency translation reserve in equity until disposal of the investment.

### 3.3 Cash and cash equivalents

Cash and cash equivalents in the statements of cash flows comprise cash balances, call deposits and highly liquid short-term investments. Bank overdrafts that are repayable on demand are a component of cash and cash equivalents for the purpose of the statement of cash flows.

### 3.4 Trade and other receivables

Trade and other receivables are stated at their invoice value less allowance for doubtful accounts.

The allowance for doubtful accounts is assessed primarily on analysis of payment histories and future expectations of customer payments. Bad debts are written off when incurred.

### 3.5 Inventories

Inventories are measured at the lower of cost and net realisable value.

Cost is calculated using the weighted average cost principle, and comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs to complete and to make the sale.

### 3.6 Investments

Investments in associates, subsidiaries and joint ventures

Investments in associates, subsidiaries and joint ventures in the separate financial statements of the Company are accounted for using the cost method. Investments in associates and joint ventures in the consolidated financial statements are accounted for using the equity method.

### 3 Significant accounting policies (Continued)

Investments in other equity securities

Marketable equity securities held for trading are classified as current assets and are stated at fair value, with any resultant gain or loss recognised in profit or loss.

Marketable equity securities, other than those securities held for trading or intended to be held to maturity, are classified as available-for-sale investments. Available-for-sale investments are, subsequent to initial recognition, stated at fair value, and changes therein, other than impairment losses and foreign currency differences on monetary items, are recognised directly in equity. Impairment losses and foreign exchange differences are recognised in profit or loss. When these investments are derecognised, the cumulative gain or loss previously recognised directly in equity is recognised in profit or loss. Where these investments are interest-bearing, interest calculated using the effective interest method is recognised in profit or loss.

Equity securities which are not marketable are stated at cost less any impairment losses.

The fair value of financial instruments classified as held-for-trading and available-for-sale is determined as the quoted bid price at the reporting date.

Disposal of investments

On disposal of an investment, the difference between net disposal proceeds and the carrying amount together with the associated cumulative gain or loss that was reported in equity is recognised in profit or loss.

If the Group disposes of part of its holding of a particular investment, the deemed cost of the part sold is determined using the weighted average method applied to the carrying value of the total holding of the investment.

### 3.7 Investment properties

Investment properties are properties which are held to earn rental income, for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes.

Investment properties are stated at cost less accumulated depreciation and impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the investment property. The cost of self-constructed investment property includes the cost of materials and direct labour, and other costs directly attributable to bringing the investment property to a working condition for its intended use and capitalised borrowing costs.

### 3 Significant accounting policies (Continued)

Depreciation is charged to profit or loss on a straight-line basis over the estimated useful lives of each property. The estimated useful lives are as follows:

Building on leased land Lease terms
Interior and renovation on leased land 5 - 30 years
Furniture and equipment on leased land 3 - 20 years

No depreciation is provided on freehold land or assets under construction.

### 3.8 Property, plant and equipment

Recognition and measurement

Owned assets

Land is stated at cost. Plant and equipment are stated at cost less accumulated depreciation and impairment losses

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the assets to a working condition for their intended use, the costs of dismantling and removing the items and restoring the site on which they are located, and capitalised borrowing costs. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognised net in profit or loss.

### Leased assets

Leases in terms of which the Group substantially assumes all the risk and rewards of ownership are classified as finance leases. Property, plant and equipment acquired by way of finance leases is capitalised at the lower of its fair value and the present value of the minimum lease payments at the inception of the lease, less accumulated depreciation and impairment losses. Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged directly to the profit or loss.

### Subsequent costs

The cost of replacing a part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group, and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of plant and equipment are recognised in profit or loss as incurred.

Notes to the financial statements

### For the year ended 31 December 2017

### 3 Significant accounting policies (Continued)

### Depreciation

Depreciation is calculated based on the depreciable amount, which is the cost of an asset, or other amount substituted for cost, less its residual value.

Depreciation is charged to profit or loss on a straight-line basis over the estimated useful lives of each component of an item of plant and equipment. The estimated useful lives are as follows:

Land improvement	5-10 years
Buildings on leased land	Lease terms
Buildings	20 - 50 years
Interior and renovation on leased land	5 - 20 years
Interior and renovation	5 - 20 years
Furniture and equipment on leased land	3 - 20 years
Furniture and equipment	3 - 20 years
Chinaware, glassware, silverware and linen	1 - 10 years
Vehicles	5 - 10 years

No depreciation is provided on freehold land or assets under construction and installation.

Depreciation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

### 3.9 Prepaid rental of land and buildings

Prepaid rental of land and buildings are stated at cost less accumulated amortisation and impairment losses.

Amortisation

Amortisation of prepaid rental of land and buildings is charged to profit or loss on a straight-line basis over the terms of lease agreements.

### 3.10 Other intangible assets

Other intangible assets that are acquired by the Group and have finite useful lives are measured at cost less accumulated amortisation and impairment losses.

Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognised in profit or loss as incurred.

### 3 Significant accounting policies (Continued)

Amortisation

Amortisation is based on the cost of the asset, or other amount substituted for cost, less its residual value and recognised in profit or loss on a straight-line basis over the estimated useful lives of intangible assets since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset. The estimated useful lives for the current and comparative periods are as follows:

Computer software 10 years

Amortisation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

### 3.11 Impairment

The carrying amounts of the Group's assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the assets' recoverable amounts are estimated. Intangible assets that have indefinite useful lives or are not yet available for use, the recoverable amount is estimated each year at the same time.

An impairment loss is recognised if the carrying amount of an asset exceeds its recoverable amount. The impairment loss is recognised in profit or loss.

When a decline in the fair value of an available-for-sale financial asset has been recognised directly in equity and there is objective evidence that the value of the asset is impaired, the cumulative loss that had been recognised directly in equity is recognised in profit or loss even though the financial asset has not been derecognised. The amount of the cumulative loss that is recognised in profit or loss is the difference between the acquisition cost and current fair value, less any impairment loss on that financial asset previously recognised in profit or loss.

### Calculation of recoverable amount

The recoverable amount of held-to-maturity securities and receivables carried at amortised cost is calculated as the present value of the estimated future cash flows discounted at the original effective interest rate.

The recoverable amount of available-for-sale financial assets is calculated by reference to the fair value.

The recoverable amount of a non-financial asset is the greater of the asset's value in use and fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

### Reversals of impairment

An impairment loss in respect of a financial asset is reversed if the subsequent increase in recoverable amount can be related objectively to an event occurring after the impairment loss was recognised in profit or loss. For financial assets carried at amortised cost and available-for-sale financial assets that are debt securities, the reversal is recognised in profit or loss. For available-for-sale financial assets that are equity securities, the reversal is recognised in other comprehensive income.

### 3 Significant accounting policies (Continued)

An impairment loss in respect of goodwill is not reversed. Impairment losses recognised in prior periods in respect of other non-financial assets are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

### 3.12 Interest-bearing liabilities

Interest-bearing liabilities are recognised initially at fair value less attributable transaction charges. Subsequent to initial recognition, interest-bearing liabilities are stated at amortised cost with any difference between cost and redemption value being recognised in profit or loss over the period of the borrowings on an effective interest basis.

### 3.13 Trade and other payables

Trade and other payables are stated at cost.

### 3.14 Employee benefits

Defined contribution plans

Obligations for contributions to defined contribution plans are expensed in profit or loss as the related service is provided.

Defined benefit plans

The Group's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Group, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any application minimum funding requirements.

Remeasurements of the net defined benefit liability, actuarial gain or loss are recognised immediately in other comprehensive income. The Group determines the interest expense on the net defined benefit liability for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period, taking into account any changes in the net defined benefit liability during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in profit or loss. The Group recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

### 3 Significant accounting policies (Continued)

Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

### 3.15 Provisions

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

### 3.16 Treasury shares

When share capital recognised as equity is repurchased, the amount of consideration paid, including directly attributable costs, is classified as treasury shares and recognised as a deduction from equity. An equal amount is appropriated from retained earnings and taken to a reserve for treasury shares within equity.

When treasury shares are sold, the amount received is recognised as an increase in equity by crediting the cost of the treasury shares sold, calculated using the weighted average method, to the treasury shares account and transferring the equivalent amount back from reserve for treasury shares to retained earnings. Surpluses on the sale of treasury shares are taken directly to a separate category within equity, 'Surplus on treasury shares'. Net deficits on sale or cancellation of treasury shares are debited to retained earnings after setting off against any remaining balance of surplus on treasury shares.

### 3.17 Revenue

Revenue excludes value added tax and is arrived at after deduction of trade discounts.

Revenue from hotel business

For hotel business; room, food and beverage and other income are recognised when services and goods have been rendered or transferred.

Management fees

Management fees are recognised in profit or loss as they accrue.

Tuition and education fees

Tuition and education fees are recognised in profit or loss according to the teaching period.

### **Dusit Thani Public Company Limited and its Subsidiaries Notes to the financial statements**

For the year ended 31 December 2017

### 3 Significant accounting policies (Continued)

Rental income

Rental income from investment properties is recognised in profit or loss on a straight-line basis over the term of the lease. Lease incentives granted are recognised as an integral part of the total rental income. Contingent rentals are recognised as income in the accounting period in which they are earned.

Dividend income

Dividends are recognised in profit or loss on the date the Group's right to receive payments is established.

Interest income

Interest income is recognised in profit or loss as it accrues.

### 3.18 Finance costs

Interest expenses and similar costs are charged to profit or loss for the period in which they are incurred, except to the extent that they are capitalised as being directly attributable to the acquisition, construction or production of an asset which necessarily takes a substantial period of time to be prepared for its intended use or sale.

### 3.19 Lease payment

Payments made under operating leases are recognised in profit or loss on a straight line basis over the term of the lease.

Contingent lease payments are accounted for by revising the minimum lease payments over the remaining term of the lease when the lease adjustment is confirmed.

Determining whether an arrangement contains a lease

At inception of an arrangement, the Group determines whether such an arrangement is or contains a lease. A specific asset is the subject of a lease if fulfilment of the arrangement is dependent on the use of that specified asset. An arrangement conveys the right to use the asset if the arrangement conveys to the Group the right to control the use of the underlying asset.

At inception or upon reassessment of the arrangement, the Group separates payments and other consideration required by such an arrangement into those for the lease and those for other elements on the basis of their relative fair values. If the Group concludes for a finance lease that it is impracticable to separate the payments reliably, an asset and a liability are recognised at an amount equal to the fair value of the underlying asset. Subsequently the liability is reduced as payments are made and an imputed finance charge on the liability is recognised using the Group's incremental borrowing rate.

### 3.20 Income tax

Income tax expense for the year comprises current and deferred tax. Current and deferred tax are recognised in profit or loss except to the extent that they relate to a business combination, or items recognised directly in equity or in other comprehensive income.

### 3 Significant accounting policies (Continued)

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for the following temporary differences: the initial recognition of goodwill; the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss; and differences relating to investments in subsidiaries and joint ventures to the extent that it is probable that they will not reverse in the foreseeable future.

The measurement of deferred tax reflects the tax consequences that would follow the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

In determining the amount of current and deferred tax, the Group takes into account the impact of uncertain tax positions and whether additional taxes and interest may be due. The Group believes that its accruals for tax liabilities are adequate for all open tax years based on its assessment of many factors, including interpretations of tax law and prior experience. This assessment relies on estimates and assumptions and may involve a series of judgements about future events. New information may become available that causes the Group to change its judgement regarding the adequacy of existing tax liabilities; such changes to tax liabilities will impact tax expense in the period that such a determination is made.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the related tax benefit will be realised.

### 3.21 Earnings per share

The Group presents basic earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year, adjusted for own shares held.

### 3.22 Segment reporting

Segment results that are reported to the Group's chief operating decision maker include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

Investment properties as at 31 December 2017 and 2016 were valued by a firm of independent professional valuers and management, at open market values on an existing use basis.

As at 31 December 2017, the fair value of investment properties presented in the consolidated and separate financial statements were Baht 1,441,584,722 and Baht 1,347,985,471, respectively.

### Measurement of fair value

Fair value hierarchy

The fair value of investment property was determined by external, independent property valuers, having appropriate recognised professional qualifications and recent experience in the location and category of the property being valued. The independent valuers provide the fair value of the Group's investment property portfolio on a regular basis.

The fair value measurement for investment property of Baht 1,441,584,722 has been categorised as a Level 3 fair value based on the inputs to the valuation technique used.

Land sub-lease agreement

The Company entered into a land sub-lease agreement with Vimarn Suriya Co.,Ltd., a subsidiary ("the sub-lessee"). The sub-lessee has the right to construct building and structure on the land. The sub-lease term is for 30 years from 1 July 2024 with the right to renew the lease for another 30 years until 30 June 2084. The 7-year period from 1 July 2017 is for dismantling and new constructions. The sub-lessee prepaid the rental of Baht 1,361,652,008. The remaining rent will be paid annually for 60 years.

Building lease arrangement agreement

Vimarn Suriya Co., Ltd., a subsidiary entered into a building lease arrangement agreement with Suanlum Property Co., Ltd., an associate. The associate paid the first deposit of Baht 492,380,000 to Vimarn Suriya Co., Ltd., in June 2017 and the remaining amount will be paid according to the terms and condition as agreed.

Lease right assignment agreement

The Company entered into lease right assignment agreement to transfer the rights and obligations on a portion of lease land under the lease land agreement to Phraram 4 Development Co., Ltd. ("Rama 4") for a period of 30 years from 1 July 2024 with the right to renew the lease agreement for another 29 years and 6 months. The 7-year period from 1 July 2017 is for the dismantling and new constructions. Pursuant to the lease right assignment, the Company has already received the lease right assignment fee of Baht 100,000,000. Management, based upon legal advice, have the opinion that the Company has transferred significant rights and duties under the said land lease agreement to Rama 4 throughout the term of the land lease transfer agreement. There is no condition that the Company must return the lease right assignment fee under the agreement. Rama 4 has entered into a land lease agreement with the Crown Property Bureau. As a result, the Company recognized the lease right assignment fee in other income in the consolidated statement of income of Baht 90,000,000 based on shareholding portion and Baht 100,000,000 in the separate statement of income as at 31 December 2017.

### 29 Segment information

The Group has four reportable segments, as described below, which are the Group's strategic divisions. The strategic divisions offer different services, and are managed separately because they require different marketing strategies. For each of the strategic divisions, the Chief Operating Decision Maker (CODM) reviews internal management reports on at least a quarterly basis.

Information regarding the results of each reportable segment is included below as included in the internal management reports that are reviewed by the Group's CODM. Management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries.

### 39 Financial instruments

### Credit risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in a financial loss to the Group.

Concentrations of the credit risk with respect to trade receivables are limited due to the large number of customers comprising the customer base, and dispersion across different geographic regions in Thailand and overseas.

In the case of recognised financial assets, the carrying amount of the assets recorded in the statements of financial position, net of a portion of allowance for doubtful debts, represents the Group's maximum exposure to credit risk.

### Foreign currency risk

Foreign exchange risk arises from the change in foreign currency exchange rates to have an adverse effect on the Group in the current reporting period and in future years. The Group expects that there may be an effect from changes in exchange rates resulting from investment in foreign currencies which has not been hedged. The Group expect that the effect from foreign exchange risk on its financial statements will not be material.

### Interest rate risk

Interest rate risk in the statements of financial position arises from the potential for a change in interest rates to have an adverse effect on the Group in the current reporting period and in future years.

Information regarding interest rates and term of payments of loan are disclosed in notes 20 and 22 to the financial statements.

### 39 Financial instruments (Continued)

### Foreign currency risk

The Group have exposed to foreign currency risk relating to purchases and sales which are denominated in foreign currencies with maturities of less than one year. The Group does not hedge such financial assets and liabilities denominated in foreign currencies.

### Carrying amount and fair values

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy for financial instruments measured at fair value. ## 41 Contingent liabilities

## Dusit Thani Public Company Limited

On 26 June 2001, the Company paid Baht 44,246,000 to the Official Receiver on behalf of World Intertrade Corporation Co., Ltd. The Company thereafter submitted a notice to World Intertrade Corporation Co., Ltd. requesting for the repayment of debt to the Company. However, the Company did not receive any repayment from World Intertrade Corporation Co., Ltd. Therefore, on 19 December 2001, the Company filed a claim in the Southern Bangkok Civil Court against World Intertrade Corporation Co., Ltd. for demanding the repayment of Baht 45,782,488 which the Company has a lawful right to claim.

On 7 December 2001, World Intertrade Corporation Co., Ltd. filed a claim in the Southern Bangkok Civil Court against the Company. The claim demanded the return of property (Dusit Thani Hotel, Pattaya) and damages. The amount claimed for damages is Baht 2,760,000,000. The Company has already filed an answer to the claim on such issue with the Southern Bangkok Civil Court on 16 January 2002 due to the reason that the Company has peacefully and openly possessed the property with intention to be its owner for more than 10 years and has obtained the building by operation of law.

On 29 July 2002, the Southern Bangkok Civil Court ordered to tie conjointly the following cases, the case under which World Intertrade Corporation Co., Ltd. sued the Company calling for its assets (Dusit Thani Hotel, Pattaya) and claiming for compensation on ground of wrongful act of the Company and the case under which the Company sued World Intertrade Corporation Co., Ltd.

Notes to the financial statements For the year ended 31 December 2017

## 41 Contingent liabilities (Continued)

On 26 March 2004, the Court has declared the case filed by World Intertrade Corporation Co., Ltd. had been dismissed with the verdict that the Company is the owner of the property (Dusit Thani Hotel, Pattaya) by virtue of the law found in the Civil and Commercial Code of Thailand, sections 1382 and 1385 without doubt and the Court has given the verdict that World Intertrade Corporation Co., Ltd. must pay compensation amounting to Baht 45,782,488 with 7.5% interest per annum of the principal amount of Baht 44,246,000 starting from 20 December 2001 until the entire amount has been fully paid.

On 26 April 2004, World Intertrade Corporation Co., Ltd. appealed to the Appeal Court. On 7 July 2004, the Company then filed the appeal answer and filed the objection against petition requesting the Court to delay the execution.

On 31 January 2005, the Company filed a bankruptcy case against World Intertrade Corporation Co., Ltd. with the Central Bankruptcy Court. Thereafter, on 11 July 2005, the Central Bankruptcy Court granted the receivership order. Then, on 9 August 2005, World Intertrade Corporation Co., Ltd. filed the appeal against the receivership order and the Company then filed the appeal answer against the said appeal. On 21 October 2008, the Bankruptcy department of the Supreme Court has considered by sustaining result of the Court of First Instance to the receiving order of World Intertrade Corporation Co., Ltd.

On 30 January 2006, the Official Receiver of World Intertrade Corporation Co., Ltd. carried out the case to the Southern Bangkok Civil Court against the Company to claim for returning of the assets (Dusit Thani Hotel, Pattaya).

On 3 April 2007, the Southern Bangkok Civil Court made an appointment with litigant the result of case of the Appeal Court of World Intertrade Corporation Co., Ltd. filed the Company to the Southern Bangkok Civil Court to claim for returning of the assets (Dusit Thani Hotel, Pattaya) by standing the result of the Court of First Instance to dispose such case of World Intertrade Corporation Co., Ltd. out of the case list.

On 3 May 2007, World Intertrade Corporation Co., Ltd. made Dika appeal to the Supreme Court with the Southern Bangkok Civil Court against the decision of the Court of First Instance and Appeal Court. However, on 26 July 2007, the Company appealed against such Dika appeal.

On 31 July 2013, the Supreme Court confirmed the decision of the Court of First Instance and Appeal Court. The civil case was absolute. Also, World Intertrade Corporation Co., Ltd., shall be responsible for lawyer fees in amount of Baht 200,000 on behalf of the Company.

However, World Intertrade Corporation Co., Ltd., was unable to pay such lawyer fees to the Company, which this was on the ground that World Intertrade Corporation Co., Ltd. was granted the receivership order by the Bankruptcy Division of the Supreme Court. The official receiver later sent the Company a notice dated 16 September 2013 to inform that the official receiver could not collect any possessions of World Intertrade Corporation Co., Ltd. which the same was reported to all of its creditors also. The case will be closed after all creditors acknowledged such report back to the official receiver. Recently, a precise period to close this case cannot be predicted.

During 2017, the Company was litigated against for the dismissal of employees approximately Baht 21.8 million. The case is under consideration by the Central Labor Court. However, the Management of the Company believes that it is not probable that the Company will have to pay the compensation. Therefore, the Company does not record such provision as at 31 December 2017.
